## ADDRESS CITIZENS TUESDAY NIGHT

Meeting at Grammar School Auditorium With C. O. Runyon of Y. M. C. A. as Speaker Interesting

There was a small but representative meeting of citizens Tuesday night at the Grammar school auditorium where there was a joint session of the Sonoma Development Board and a gathering of Sonoma townspeople to hear Chas. O. Runyon on National War Work of the Y. M. C. A.

The development part of the evening developed the pessimistic point of view of the should be boosters who bemoaned Sonoma's outlook. Instead of a hopeful tone there was evident a dismal lot of brain cells if chairman Spencer's speech was expressive of the organization he represented. Spencer declared that the chicken men of Sonoma Valley are having a hard time to exist when they get but 25 per cent more for their eggs and feed is costing 200 per cent more than it used to. No remedial measures were suggested or undertaken however. The development chairman suggested that we get mechanics working at Mare Island to live in Sonoma Valley and seek to get the cheap untenanted houses here rented to advantage. The suggestion however was not fruitful of any ways and means to decoy the prosperous mechanic from his present haunts to the valley of the moon.

The latter half of the meeting was turned over to Mr. Chas. O. Runyon who gave a very interesting resume of the great work of the Y. M. C. A. in the army camps. Mr. Runyon is a field secretary from Camp Kearney and is out in the interest of raising more funds to carry on the splendid activities of the organization among our soldier boys here and abroad.

Mr. Runyon declared we did not yet realize the perils and self denial which is coming to this country through participating in this terrible war. As to financial help, the United States has given so far but a half of one per cent of its wealth while Germany has already given 10 per cent to carry on her war. He said there would be more calls for Red Cross work, for another Liberty Loan etc. and now was this appeal for funds to further the helpful Y. M. C. A. work. Sonoma's share toward this he figured was about \$500.

The association provides homelike comforts for the boys, conducts all athletic recreation such as boxing and wrestling, moving pictures, a religious service along modern lines and helps the boys keep their money to bank or send home instead of blowing it in on crap games etc. He declared the popular pastime of sending cigarettes and tobacco to soldiers, branding the fad as a game of the tobacco trust and declaring it to tend toward teaching boys to smoke. Send smokes to individuals, suggested Mr. Runyon, to those you know always smoked. To raise the morale of the boys

## XMAS BOXES ON WAY TO SOLDIER BOYS IN EGYPT, FRANCE AND PHILIPPINES

Red Cross Ladies Busy Packing Precious Parcels To Make Absent Ones Happy Holiday Time.

If there were a bit of sentiment or enthusiasm in you it would make your heart beat high with joy to see those dozen or more Red Cross ladies packing Christmas boxes this week for our boys gone to war.

The Grammar school basement has been the scene of the big hearted activity inaugurated by the members of the Red Cross and their generous friends, among the latter the Native Sons who donated \$10. The benefit tea netted about \$90 and with contributions and gifts it has enabled the good women who have this work in hand to assemble a wonderful lot of good and useful and delicious presents for our soldier lads. Some of the home made goodies would make the stay-at-home boys green with envy if they could just get a look or a delicious breath of that spicy smell of Christmas cookies and fruit cakes and candies. Then there are nuts and raisins, chocolate bars, writing material, gum and even match safes, all tied up with Christmas ribbon and packed with "some" care. For real thoughtfulness this group of patriotic philanthropists cannot be equalled. They even figured out that raisins and Xmas cookies packed together would take the crispness out of the cakes. Yes indeed, our boys must have the best and cookies just like mother used to make right out of the oven. They are packed in tin boxes to keep them fresh and savory and then in another receptacle are tobacco and cigarettes, and the women, bless them, are terrible worried lest the fumes of old tobacco mingle its masculine aroma with the dainty "cats". Only the thought of those reveries which comes them for the mixture, otherwise tobacco would be taboo.

The school house packing room which resembles Santa Claus' own store room is the cynosure of all the school kiddies eyes but it is a room of mystery to them for the ladies keep the key turned in the door and thus curiosity grows hourly. No one gets in here but the committee said one busy lady to her co-workers Thursday. "No one but a mouse" answered a wise school marm who knows all the ins and outs of the building, whereupon they all unconsciously grasped their skirts mistrustfully.

looking for the mouse who could be so unapologetic as to intrude in times like this.

More than sixty-five boxes are being prepared for shipment and those shipped to the camps on the coast are to cost as much in parcel post fees as those sent abroad. It cost \$2.80 to send the four boxes already on their way, but that is a small item where generous impulse holds sway and there will be ready response in case of any lack of funds.

To the hot sands of Egypt, to the tropical shores of the Philippines and to beloved France, parcels are all ready on their way from the good people of Sonoma to the boys of the Red, White and Blue. The boys to receive gifts are taken from this list, the Sonoma boys being looked out for by the local committee while Glen Ellen is to take care of those who enlisted from that vicinity.

## BELLE OF SIXTIES CROSSES DIVIDE

Passing of Sally Robinson Hackett Brings Memories Back to Admirers Of Early Days.

Mrs. Sarah Hackett, affectionately called Sally Robinson before her marriage in the early days in Sonoma where she was a belle, passed away in San Francisco last Saturday and was laid to rest here beside dear ones gone before. Mrs. Hackett was a beautiful Southern girl, a sister of Mrs. Waters who with her husband were among the Sonoma settlers of 1868. Mr. Waters was in the plumbing and hardware business here. The family came from Virginia and when they arrived in Sonoma, found only adobe and very unsubstantial frame buildings, where they had been accustomed to structures of brick.

Mrs. Waters straightway found the only brick house in town, the one now owned by Jack Murray on First Street West. Here they made their home and the beautiful Miss Robinson came to live with them. In 1870 the latter married Dr. Vaslet, a practicing physician. They later removed to San Francisco and after becoming a widow, she married a dentist, Dr. Hackett, who enjoyed a lucrative practice and a coterie of influential friends. As Mrs. Hackett, the handsome Southern lady, was still a beauty, for age had been most kindly and her always beautiful soft dark eyes were in effective contrast to the sheen of her wealth of snowy hair. About five years ago she was in Sonoma and visited old friends.

Dr. Hackett preceded her to the Great Beyond and was buried here in Mountain cemetery beside other departed ones who had been dear to her. Here it was her desire to be buried, so upon her death last week it was decided to hold services at Grace Cathedral in San Francisco and to have the remains brought to the valley of the moon for interment.

Mrs. Hackett had been in failing health of late and death came as a surprise to her suffering. She was about 70 years old at the time of her death.

The funeral took place here Tuesday upon the arrival of the morning train and many old time admirers of the belle of former days came to pay their respects to her memory. Among those who were up from San Francisco for the obsequies were Wm. Waters, a nephew, and family, Mrs. Natalia Davis, Mrs. Harry Gysmore, Mrs. Roberts, Mrs. Kingsman, Mrs. Harby and others. Interment was in Mountain cemetery.

RELATIVE OF FRANK WATTRESS

LEAVES QUARTER OF MILLION

A copy of a will bequeathing a fortune of over a quarter of a million dollars has been sent to Frank Wattress of Agua Caliente, a cousin of decedent and devisee. Mr. Wattress is not mentioned in the document which disposes of the vast fortune although the relative who died in Boston had no closer kin than Sonoma Valley's pioneer resident. The Boston relative left great sums to charities and many bequests to relatives everywhere. The law firm which forwarded the copy of the will to Mr. Wattress at Caliente called his attention to the fact that he had been overlooked. According to the laws of California, unless a next of kin is specifically cut off or disinherited, he is entitled to his share of the property. Mr. Wattress may look up the Massachusetts statutes on this point of law.

Among the bequests of Wattress' rich relative, George V. Leverett, was money to Booker T. Washington and his Institute, to Mt. Auburn cemetery, to the Bunker Hill monument and to the Colonial Society of Massachusetts. One relative remembered was the wife of Chas. G. Simmons of Dighton, Mass. Mr. Simmons was a visitor to the Wattress ranch not long ago. Frank Wattress mother and Leverett's mother were sisters, the family name being Betley.

George V. Leverett was chief counsel for the Bell Telephone Co. in Boston and some of his fortune he bequeathed to Howard Brown, his law partner.

## NICHELINI ASKS FOR ACCOUNTING

Aftermath of Partnership Split is Court Action.

F. Nichelini has filed an action in the Superior Court of this county through his attorney Wm. F. Cowan, asking for a dissolution of partnership between himself and the Maffei Brothers in the hardware and plumbing business and also an accounting of certain moneys and other relief.

Nichelini alleges that when the Maffei boys went into the automobile business there was a confusion of interests, money having been put into cars which belonged to other departments of the store. He further alleges that defendants took possession of the books of the firm and a pad lock was put on the door. He therefore seeks to have the Court straighten out business matters between them.

Maffei Brothers have now gone into the automobile business entirely while Nichelini is in the plumbing business. The former prosperous business which they all jointly conducted was sold out some weeks ago.

## Wives Dependent and Otherwise

The District Exemption Board sitting at San Rafael, has denied the exemption claim of Professor H. M. Monroe, Principal of the Calistoga Union High School. This case has attracted considerable attention throughout Napa county. Mrs. Monroe is also a member of the faculty of the High school and not dependent upon her husband for support.

There are similar cases no doubt which have come to the attention of the Exemption Boards and it seems to us to be an injustice to the wife who has been more than a helpmeet and who perhaps has elected to assist in carrying a greater financial obligation than either husband or wife could carry separately, if when the obligation is well under way, the government withdraws the husband from the load both have been carrying and because a wife has demonstrated her ability, to force her to go it alone, classing her as independent. Many a wife within the protecting walls of a home and fully protected by the status of a dependent might be able to have demonstrated her ability also if she had chosen to carry or assist in carrying a dual burden or to do double duty.

It seems almost like putting a premium on irresponsibility and turning the wheels backward—the wheels of modern business progress in which the women of today are making a big drive. If the time is at hand where all men, regardless of their obligation to wife and home must serve their country, all women should strive to do their utmost to be self supporting, but when many unmarried men are yet uncalled for various reasons, it would be more of a compliment and acknowledgment of the value of thrift for Exemption Boards to consider thoughtfully the claims of married men who have income assisting wives, to inquire what obligations they have assumed which might suffer by the severance of their partnership and to ask themselves if when a wife takes on voluntarily the assistance of earning the income, she should be treated any differently than any other wife.

The High School teachers wife may have taught school to earn money to pay for sewing, washing and cleaning which her training had never taught her to do right. Perhaps her health did not fit her for an efficient housewife. Should she then be treated differently than the wife whose duties were all of the home? It seems to us that the woman who has demonstrated her capability in other lines should not be discriminated against when it comes to weighing the claims of a married man. All wives should be entitled to consideration as long as it is possible.

Wives may be quite dependent and yet be money makers though it might take a psychologist to understand the temperamental side of that phase of it.

## Write a Letter to Our Soldier Boys

Tomorrow has been designated as letter writing day, for the soldier boys all want letters and yet we are so prone to put letter writing off unless it be fond mothers who postpone everything else to send the regular words of cheer each day or so to their loved ones. Remember the fond ties of friendship that have been put asunder by the young men gone to war and do not forget to realize that you can do a lot to keep cemented the bond of feeling between those who are away and their old home town by writing once and a while in natural unconstrained fashion. Do it tomorrow.

As To The unkind things said by the Healdsburg Scimitar concerning Sonoma County's Horticultural Commissioner's presence at the Land Show, we believe that the Editor up there is afflicted with some kind of a mental camouflage. Clear up your vision Ande, you know that publicity of any kind is good for Sonoma county and Mr. Bremner is a valuable man.

An Ice creamless day is the latest. Now if the thermometer will only be good and Hooverize with the hot weather on the ice creamless days it will be easy.

Let Us Hope that since Lull has been chosen District Attorney of San Francisco, there will be a political condition in the city that will be in keeping with his name.

### WEDDING DAY IS NEAR

The future Broadway home of Victor Leveroni and his bride-to-be is all prepared and the wedding is to be solemnized very shortly. It will be a quiet ceremony, the young people going away to be wed and returning here after a wedding tour down south.

Mr. and Mrs. S. Lydiard have returned to their fine ranch east of town after a motor tour to Southern California.

Mr. and Mrs. Phil Leiser have gone to Oakland and will be missed by a large circle of friends. They expect to return next season as Mr. Leiser is a partner in the Mission Garage.

### TO BOOM YOUR TOWN

Talk about it.  
Write about it.

Elect good men to office.

Keep your house well painted

Keep your sidewalks in good condition.

If a poor man start a project, help him.

If a rich man start a project, encourage him.

Buying in other towns that which you can buy as well in your own, makes your town that much poorer.

Don't talk your town down to strangers.

If you are rich, invest in something; employ somebody.

If a project to improve the town comes up, don't hoot—investigate.

Don't let your personal antipathies get away with your business judgment

Follow the men who have the vim and energy to go ahead—and "saw wood"

Be courteous to strangers who come among you so they will go away with a good impression of your town.

If you don't like your home town well enough to speak well of it, get out of it and make room for better men.

A town whose citizens have no public spirit or civic pride is on the way to the cemetery. The citizen who will do nothing to boost his town is helping to dig its grave.

The citizen who growls about his town being "the worst ever" is assisting in its burial.

The business man who will not advertise is driving the hearse.

The citizen who is a chronic grumbler and always pulling back in every public enterprise is throwing bouquets on the grave.

The citizen who "knocks" and howls "hard times" preaches the funeral sermon.

The small town business or professional man who gives his printing to the "high flier" representatives of the city printing house does not deserve the patronage of his town people.

### WINE IS HIGHER

Keeping pace with other commodities that the growers of this section produce, wine is said to be higher now than ever before at this season of the year, and wine producers are not selling even at the high price.

J. A. Cuminsky, one of the best known of Sonoma county's wine and grape men, was in Healdsburg from his Cloverdale home last Saturday and he stated to a representative of the Scimitar that on that day Cloverdale wine men had been offered 28 cents per gallon for their wine, and had refused to sell.

If prosperity in keeping with other prices comes to the wine men of this section, as it has come to the producer of all other farm products in Sonoma county, we will harvest the biggest and best paying crop in our history. Our banks are even now overwhelmed with money, but a big price for our volume of wine means probably more to us than a big price for most any other product we have.

## THE SOLDIERS USE THE Y. M. C. A.

The Top Sergeant Says He Doesn't See How They'd Get Along Without It—Looks After The Boys

Upper, making leisure moments pleasant and profitable; lower, baseball under Y. M. C. A. auspices.

BY HENRY C. NEWELL

**I** DON'T see how we could get along in camp without the Y. M. C. A. The buildings are the nearest thing to home in the whole outfit—and the secretaries look out for us almost like a wife does for her husband. The top sergeant who volunteered the statement at one of the big Pacific Coast camps where thousands of California boys are in training for the great adventure of war was never more serious in his life—and he was never nearer the truth, for when it comes to meeting the social, recreational and spiritual needs of the soldier there is nothing like the Y. M. C. A.

Mothers, sisters, wives and sweethearts of California can be assured that the Y. M. C. A. has supplied whatever might formerly have been lacking in camp life—and in a way that satisfies every soldier. Everywhere one goes in these great military centers there is a good word for the "Y."

There are tons of writing paper and envelopes for his unlimited use—an effective chain that keeps him linked to the home fireside and the loved ones. All he is required to do is to buy postage.

Then there are social games, checkers, chess, dominoes, billiards, and pool. A phonograph is kept busy day and night, for all the fellows love music. The ice water tank is also a popular spot. In bookcases or racks are the late magazines and newspapers.

Certain nights of the week are devoted to boxing or wrestling matches; others to vaudeville entertainments, lectures, motion pictures or home talent "stunts." Then there are educational classes for everybody and a fine chance to improve oneself mentally. French is now a popular study.

Baseball, volleyball, basketball and other outdoor games are almost constantly in progress under Y. M. C. A. direction in all the camps.

On the religious side, the soldier boys are being taken care of in the same efficient manner; there are many religious meetings and help of a personal nature when it is needed. Every Y. M. C. A. secretary is a confidant of the soldier boys and helps many of them through some crisis in his life.

It is to provide this same program for every enlisted man in America as well as the men in the armies of Russia, France and Italy that the Y. M. C. A. is now planning a national campaign from November 11 to November 19 to raise a fund of \$35,000,000. Two-thirds of this sum will be expended in the United States or used to provide for the troops as they move across the ocean. Much of the remainder will be used for Y. M. C. A. work among Allied soldiers and the 6,000,000 prisoners of war.

California's share of this sum has been set at \$750,000 and the campaign to be waged in this State is now being organized, with George W. Marston of San Diego as the chairman.

## MANAGEMENT OF HOME COMPLIMENTED

Robert A. Poppe, one of the Board of Managers of the State Home at Eldridge will be pleased to hear this about the big institution as viewed from Healdsburg.

"In charity work efficiency ends at the very point where politics and pork barrel methods begin. The state has found this to be true. And the management of the Glen Ellen Home for the feeble minded is our nearest example of what the state has done.

Pulled out of politics bodily, the home was put into the hands of intelligent, fearless, capable men; who will hesitate to tell you of some of the things they found there, but if you are interested, they will tell you. It is a place of intelligent management, and is conducted ably and efficiently as any bank you may happen to be acquainted with.

## MAYOR OFFERS \$10 PRIZE FOR DEBATE

Two prizes of \$10 each are offered by Mayor Greene Majors to the winners of a debate by local school pupils on the question. Resolved: That in the light of the experience of other cities along the same lines, Alameda should own, operate and control her water system.

The teams, consisting of three pupils each, are to be chosen by the schools taking part. The debate will probably be scheduled for December. The High School will be the first to debate the question. When the results of this are made public the date and conditions of the grammar school debate will be made known.

Mayor Greene Majors said today that his object in offering the prizes is to stimulate an interest in forensics and a wholesome discussion of political economy and civics in the schools. — Alameda Times Star.

# Royal Baking Powder

## Save eggs in baking

In many recipes only half as many eggs are required, in some none at all, if an additional quantity of Royal Baking Powder is used, about a teaspoon, in place of each egg omitted.

Try the following recipes which also conserve white flour as urged by the government.

### Corn Meal Griddle Cakes

1 1/2 cups corn meal  
1/2 cup milk  
1/2 cup boiling water  
1 tablespoon shortening  
1 tablespoon molasses  
1 cup flour  
1/2 teaspoon salt  
4 teaspoons Royal Baking Powder  
NO EGGS

Scald corn meal in bowl with boiling water; add milk, melted shortening and molasses; add flour, salt and baking powder which have been sifted together; mix well. Bake on hot greased griddle until brown.

(The Old Method called for 2 eggs)

### Eggless, Milkless, Butterless Cake

1 cup brown sugar  
1/2 cup water  
1/2 cup seeded raisins  
2 ounces citron, cut fine  
1/2 cup shortening  
5 teaspoons Royal Baking Powder

Roll sugar, water, fruit, shortening, salt and spices together in saucepan 3 minutes. When cool, add flour and baking powder which have been sifted together. Mix well; bake in loaf pan in moderate oven about 45 minutes.

(The Old Method [Fruit Cake] called for 2 eggs)

Send for our new booklet "55 Ways to Save Eggs." Mailed free on request. Address Royal Baking Powder Co., Dept. H., 135 William Street, New York

## VINEBURG

Vineburg enjoyed the arrival of many of its old fine residents on Sunday last, all being the welcome guests of friends.

Messers Chas. and Albert Groskopf motored to Sebastopol in Als Grey Meteor on Sunday last, and were the guests of Mr. and Mrs. Otto Gerick and family. The gentlemen were delighted with their reception, and it reminded them of the many pleasant days spent at "Dear Old Alta Vista" the former home of Otto Gerick.

Frank Knolle is now a resident of Vineburg and has many friends in this vicinity, believe me.

A pretty birthday party was celebrated at the home of W. R. Hanson in honor of his youngest daughter Ruth; Many of the little ladies' friends wished her many returns of the day, and after partaking a dandy repast, everyone departed home.

We are glad to hear that Vineburg is waking up. That is in a social way, and that a number of our young men will form a Social Club and will give their initial dance at Martin's Pavilion on November 17th. We wish the young men luck. The moving pictures made good in Vineburg, why not the dances.

Mrs. Harry Brandt was the guest of Mrs. Jos. Groskopf at her new home Gravenstein Lodge on the Napa road.

Mr. F. Frost and Mrs. Sallie Seehuber of San Francisco were the guests of Miss Myrtle Hardy at the lady's home on the Napa road on Sunday last.

Mrs. Arthur Batto of this place and Mr. and Mrs. August Figone of San Francisco visited her husband Arthur Batto at Belmont, San Mateo Co., Sunday.

Mr. F. Hellberg the popular roadmaster is doing fine work on the road on this vicinity since his appointment. He's the right man in the right place allright.

Quite a large amount of Hay has been handled at Battos Spur the last week and a number of men have been engaged in delivering and receiving it, a straight car was shipped South on Thursday last.

Mr. John Batto accompanied by his daughter Miss Mary spent the week end as guests of friends and relatives at the metropolis. During his stay Mr. Batto visited his son Arthur Batto in Belmont, San Mateo Co. and the many friends of "Art's" in Sonoma Valley will be pleased to hear that the young gentleman is getting along nicely and improved rapidly.

He has placed his order with Busby and Coates, local Ford agents and expects delivery "some where" this month. Mr. Gossin was a contestant in the last Federal Examination for Rural Mail Carrier for the district adjacent to Sonoma, but to date has no return of his standing.
